

Array

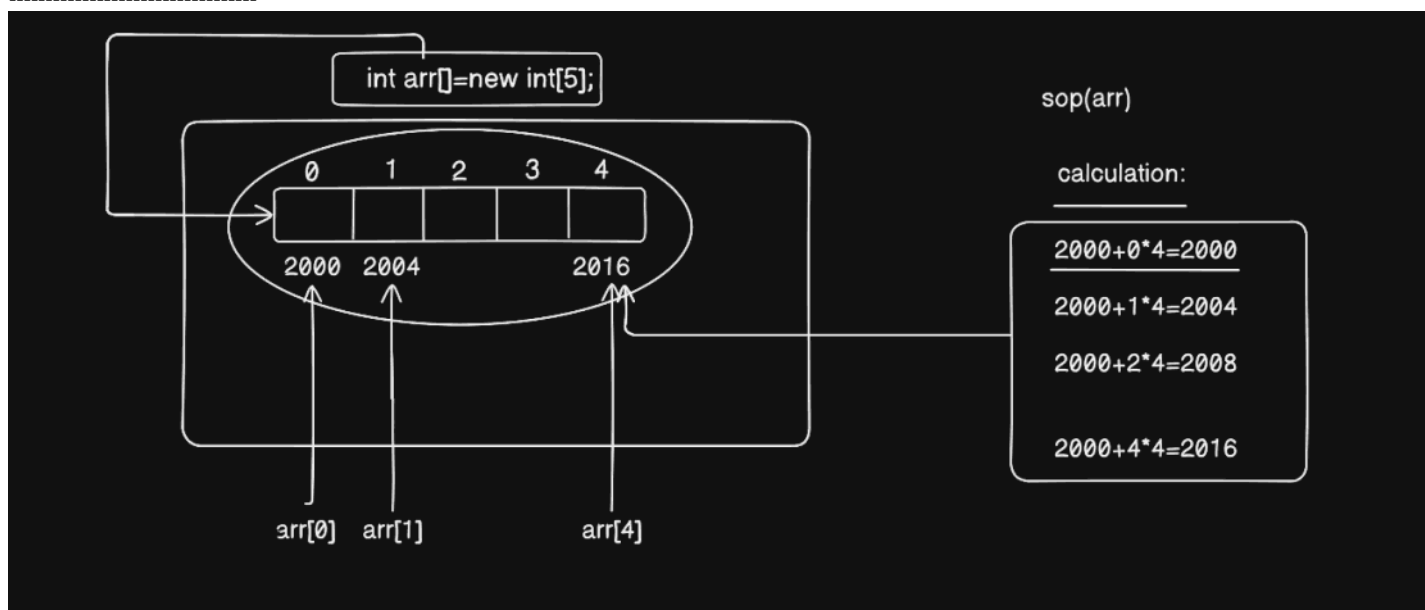

27 June 2026 09:09

```
int a1=10;  
int a2=20;  
int a3=10
```

We need to store marks of 100 students

Why index start with zero

How to take input from user

```
Scanner sc=new Scanner(System.in);
```

Note:

Method	Use	Stop at
Next()	Read a single work/token	Space,tab, or newLine
